FROM PROPERTY MANAGEMENT OFFICE
DATE JUNE 17, 2026
SUBJECT HALLWAY LIGHTS REDUCTION

Dear Valued Unit Owners and Residents,

As part of our continuing efforts to promote energy efficiency and reduce electricity consumption within the property, the Property Management Office will implement a daytime hallway lighting optimization program. Beginning immediately, selected unused hallway lights will be switched off daily from **10:00 AM to 5:00 PM**, which has been identified as the period of lowest resident traffic and sufficient natural illumination.

HALLWAYS LIGHT REDUCTION SCHEDULE		
TIME	AREAS	LOCATION
10am to 5PM	All Hallways	T1 & T2

This initiative aims to reduce unnecessary energy usage while maintaining adequate lighting levels for the safety and convenience of residents. By optimizing our common area lighting operations, we can help lower electricity costs and support a more sustainable and cost-efficient community.

We appreciate your understanding and cooperation as we continue to implement practical measures that benefit both the community and the environment. Every watt we save today helps build a better tomorrow for our property.
